EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Remus F. Fetea on February 9, 2007.

The application has been amended as follows:

Abstract Amendment

(i) With regard to the abstract, line 10, the word "said" has been changed to the word --the--.

Claim Amendments

(I) With regard to Claim 1 (line 6), the phrase "the medium-facing surface" has been changed to the phrase --a medium-facing surface--.

(II) Non-elected Claims 9-15 have been cancelled in their entirety.

Rejoinder of Inventions

Claims 1-8 and 16 are allowable. The restriction requirement mailed July 11, 2006, included an election of specie requirement among four differing species (Species I-IV).

It is noted, however, that since at least independent claim 1 is generic to Species I-IV and was allowed, the previous restriction requirement as it pertained to the Election of Species, has been vacated.

The restriction requirement *as it pertains to the election of species I-IV* is hereby withdrawn.

In view of the above noted withdrawal of the species portion of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application, as it pertains to the species portion of the restriction.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.
